

Natural Tool Stones

EID specialize in supplying a full range of natural diamonds to suit all of your tooling needs.

We work alongside our customers to tailor our stones to meet their specific requirements finding the right quality at the right price. We pride ourselves in making sure to have the know-how as well as the inventory to be sure to fulfil all of your industrial diamond demands.

- All pictures are for illustration purposes only – please contact us for more detailed and specific information
- All rough diamonds supplied via legitimate conflict free sources and are fully compliant with the kimberley process certification scheme.
